

THE DEPARTMENT OF BOTANY

VISION

To establish and to be recognized as a department of high standard in teaching and learning of recent plant science based approaches and to enhance the chances of employability of students.

MISSION

In order to prepare mechanism for fulfillment of vision and goals, group discussion and debate based approach should be incorporated along with regular teaching.

To make students updated in the field of employability, soft skill development workshops are to be introduced.

FUTURE PLAN

- + To create links in college website for open discussions, information sharing and feedback based contribution.
- + To increase facilities for greenery enhancement in the campus and to introduce new plant varieties in Botanical Garden, along with listing, auditing or coding and geotagging of available plants.
- + To create environment for competitive exams like NET, SET and GATE.
