- 8.Continuous Improvement in Education
- 9.Institutional Awareness and Practicability
- 10.Value and Outcome Based Education
- 11.Inspiring Campus Environment

### 7.3 Institutional Distinctiveness

---

#### **We fulfill our Vision, Goals and Objectives in the *Mission mode*, which are determined by this HEI**

This institution was established in 16 Aug 1989. It has celebrated its silver jubilee on August 2014. The aim of starting of the college in this rural area was to provide an opportunity to the rural students of this area, especially the rural girl students to pursue the higher education for their development and progress of the family. It is to be noted that the two-thirds of total enrolled students are girl. So, in accordance with mission statement HEI gives exposure to the girl students to get an opportunity to participate in every curricular, extracurricular and extension activities very actively. This is done by various committees, e.g. through the NSS, NCC, YRC, personality development program, carrier counseling committee, etc. The programs for the student get a stage and dais to develop their academic as well as their personality, professional, cultural, social consciousness, alertness and responsiveness.

Low cost education is effectively implemented --The admission fees of the students are very low. It is in the range of nearly Rs.1200/ to 800/ per year. According to the Government's rule, there are no tuition fees for girls, SC and ST students. So, the low cost education is effectively implemented in this college. Also, nearly 80% of economically and socially backward class students apply for the government scholarships like BPL, Post-metric and other scholarships. Also, the self-financing fees is very low and ranges from 8000/ to 10,000/ per year for PG courses and 15,000/- for PGDCA one year diploma course. More students recover these fees by applying Government scholarships.

Empowerment of common rural student through quality education - The library facility is given to all students. There are nearly 23,000 books for only 1600 students, which comes at an average of 15 books per student. Also, it is important that the books issued by students are not returned before their examinations. It is returned after their examinations, without late fees. It indicates our humanity face to go beyond the established rule of library to give student their education. It verifies our policy of getting education to help student for their academic excellence, as well as the empowerment of common rural student through quality education.

Quality education to meet the global challenges— There are rarely some government colleges, which provide the self-financing courses, and take responsibility to give education to rural students in each field of education at one roof. Our college taken this challenge of enhancing GER (Gross Education Ratio) and provide education successfully. There are 7 self-financing courses, *i.e.*, M.Sc. in Chemistry, Botany and Zoology; M.A. in Economics, Geography and Hindi, and PGDCA (post graduate diploma in computer application). By doing this, we confirm to give higher education to nearly 10% of total enrolled and nearly 40% of the newly passed graduates. Our student get merit position each year in one or more than one these courses. An average of more than 95% passes in these courses.
